Kroll Ontrack™

9023 Columbine Road
Eden Prairie, MN 55347-9940

More than 90% of corporate communication is now electronic and only 30% of that is ever printed. Discovery is now more complex and expensive than ever. Or is it? Studies show that the old “scan it, code it, print it” method can cost up to 70 cents a page. With Kroll Ontrack electronic discovery, costs can be reduced by more than 50%. And, the best part is how easy it is to review documents online using ElectronicData-Viewer™.

Save time. Save money. With Kroll Ontrack, it’s child’s play.

KNOWLEDGE IS POWER

Stay on top of the changes in the electronic evidence industry with timely news and information from our free newsletters. Subscribing is easy – just return the attached card!

Comprehensive Solutions

We provide a wide range of services, consulting, and software to help you locate, manage, and review electronic evidence. From data collection to processing, production, and online review, we have what it takes to meet your needs.

Experience

Since 1985, we have helped hundreds of thousands of clients recover, restore, search, and produce electronic information. We are recognized as the worldwide leader in the field of electronic evidence.

Technical Expertise

We have a highly trained staff of computer forensic engineers, many of whom have testified as expert witnesses.

Legal Consulting

Our experienced legal consultants work as part of your team, helping you to gain a strategic advantage over the opposition.

Why choose Kroll Ontrack?

Unparalleled Capacity

We have the ability to scale our operations to meet your challenging client, court, or regulatory deadlines.

Technology

Our proprietary technology is the most advanced in the industry. We have the ability to restore data from servers, computers, and nearly all types of archival systems quickly and efficiently.

Online Review

We make the review of electronic documents simple with an easy-to-use online system that gives you the flexibility to categorize, search, and print documents from just about anywhere.

Security

Our engineers follow strict chain-of-custody procedures. We use state-of-the-art equipment to ensure that data loss or equipment damage does not occur during processing.
